SHUTTLE BUS

LARGE CAPACITY ELECTRIC TRANSPORT

The E-Z-GO Shuttle Bus is a 14 seater electric transport vehicle which is suitable for both indoor and outdoor use. The Shuttle Bus has 11 forward facing and 3 rear facing seats, a 72V AC power train, seat belts, headlights, indicators and a car-style dashboard. The E-Z-GO Shuttle Bus is ideally suited to move people about at events, hotels, theme parks, ports and just about anywhere else that people need to be relocated. The 72V AC drive train offers the range to work all day, capable of an extended range.

The Shuttle Bus has driving range of up to 120km, this will be influenced by factors such as the load and topography of the site where it will be used. The vehicle features a full length canopy and a glass windscreen, with an optional windscreen wiper, to help keep the elements off. Other options include a rain cover, cool box, adjustable steering wheel and a radio.
