

# Design,

# Build,

# Handmade custom boxes.

# Deliver. ✓

Enhance the functionality and longevity of your utility vehicle with a unique, handcrafted cargo box.

Tailor-made rear boxes, fully customizable for any purpose, boasting the ability to be painted in any desired color and adorned with self-adhesive brand stickers.

From housekeeping to land management, agriculture, and transporting passengers and luggage, the applications are limitless.

Custom rear boxes can be designed to fit nearly any vehicle in our inventory, including golf carts, providing unmatched versatility.

## Light, but strong.

Experience the benefits of our custom boxes featuring a honeycomb core. Our innovative lightweight design significantly decreases the weight of the board in comparison to solid board, leading to substantial energy and fuel savings.

## Environmentally friendly.

Custom boxes are produced without any harmful substances being released, ensuring the safety of both our customers and the environment. Additionally, the plastic materials used in our production process are fully recyclable, minimizing our environmental impact and promoting sustainability.

## Flame retardant & anti-aging.

Boxes can be expertly coated to offer supreme flame retardant, anti-static, and anti-ultraviolet features, and can be produced in any shade of your liking.

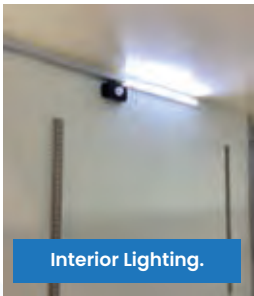

# How will you use yours?

When it comes to designing your boxes, we will discuss what you need, create your drawings and a visual and provide you with a stage-by-stage quotation to ensure that budgets and schedules are maintained throughout production up until final delivery.

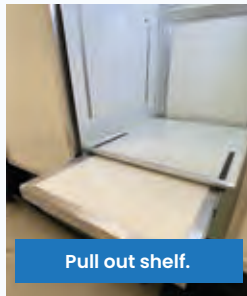

Examples of features you could add to your custom box.

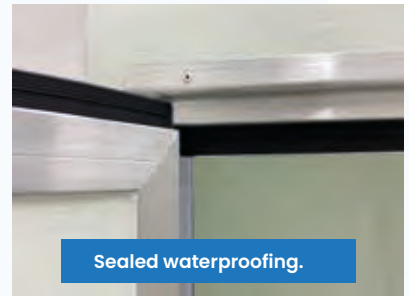

Interior Lighting.

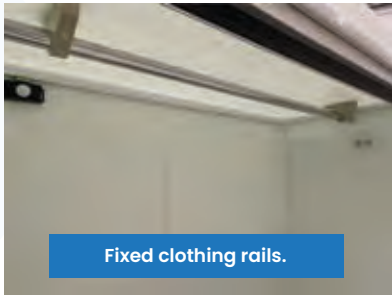

Multiple compartments.

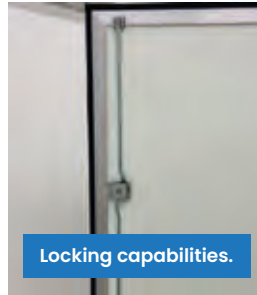

Pull out shelf.

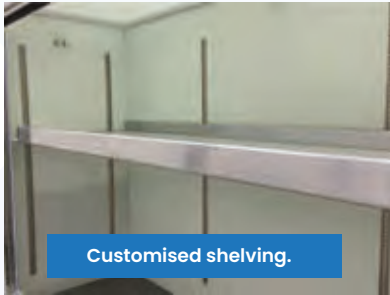

Sealed waterproofing.

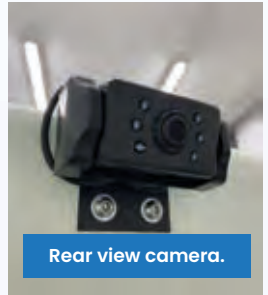

Fixed clothing rails.

Locking capabilities.

Customised shelving.

Rear view camera.

## An example fitted to a Shuttle 2 utility vehicle.

This large, multi-purpose box has been designed to maximise storage and shelving space along with other benefits such as waterproofing and lockable door access. All are fitted to a custom-made chassis, beautifully weight-balanced for maximum performance and safety.
