

Moving people in style.

Helps to efficiently go about your business.

Shuttle 6.

The Cushman® Shuttle™ 6 is the go-to vehicle for moving people throughout a facility.

It is equipped with four forward-facing seats and a rear-facing bench seat that flips over to provide a useful area for luggage and cargo.

Available as an ELiTE lithium vehicle activated by Samsung SDI battery technology or with an efficient 13.5 hp EFI gas engine, the Shuttle 6 will ensure your crew and guests will arrive and depart in style.

The Shuttle 6 can be fitted with a weather enclosure to keep the worst of the elements off the vehicles occupants during transit. It can also be personalised and made more visible by adding hazard beacons, strobe lights and LED headlights if they're being used in busy or hazardous areas.

ELiTE Lithium

Powered by Samsung SDI Lithium Technology

13.5 hp

Electric Fuel Injection Petrol Engine

6

Person Capacity

1200lb/544kg

Vehicle load capacity

Zero Battery Maintenance

No terminal cleaning or watering

Speedy Charge

2x Faster charging when equipped with world charger
